

Malvern Cricket Club

CHANGING ROOM RULES

ECB: Cricket is unusual in that children play, compete, practice, train and socialise amongst adults.

- Junior players should be encouraged to arrive and leave in their playing kit so they are not required to change / shower at the ground.
- If an adult team includes junior players, junior players are to change first, without adults in the changing room, including coaches/parents.
- If a team is mixed gender, then female players are to change first, without male players in the changing rooms.
- This guidance applies to transgender, non-binary and other players, for whom suitable and comfortable arrangements should be made.
- Mobile phones or other equipment capable of capturing still or moving images must not be used in the changing room when people are changing.
- Juniors aged 16 and over may wish to change/shower alongside adults in communal changing rooms. This is ONLY permitted when agreed in advance between the junior player, the player's guardian and the Club Safeguarding Officer, being documented for future reference.
