When registering every child, make sure you register as a parent first, and when that is complete, then “ADD” your Junior players, one at a time, making sure you complete all the information.  
Once you have completed the initial adding of their name, you will see in your profile box a message appearing that says please complete additional membership information.  
Please do this for each child before moving on to the next one.

NB: We cannot accept Players at training or select for matches unless all membership information is complete, and where relevant, subs paid.

NB: Please do not enter an adult team for your children, just the junior team (the club will assign to the relevant adult team as and when they are selected).

**If you are under 18 years of age on 31<sup>st</sup> August in a year you must register as a junior player – and you will be eligible to play for U18 teams in all competitions.**

The Club has a programme of introducing U18 players onto adult hockey – your team coaches will advise how this is managed.
