

Overview

The Club is committed to delivering a programme of coaching and development to all Juniors, that will develop their hockey to the highest possible ability in a safe, secure, and fun environment.

The Club recognises the junior section as a prime feeder of talent into the senior club and has a programme of senior coaches working with the junior coaching teams to ensure talented players are introduced into the senior games at the appropriate level. This is monitored by the coaching team, and visible within the Teamo selection system.

This report purely records the current season representation within the EH Talent development programme, of individuals not teams, including representational hockey at junior level. See website (www.winchesterhc.co.uk) for team achievement records.

Junior achievements 2024-25. NB: Those marked with # played through the Winchester Junior programme, until leaving for an EHL club or University, or in the last season
