

Leicester Hockey Club 2022-2025

The purpose of this document is to give the 1st XI purpose and direction. We all love this sport, dedicate ourselves to training and performance in matches, so lets add a layer of direction. Get this part right and everything else from points in the league, to feel good socials off pitch will fall into place.

The Present

To secure promotion this year.

To improve game awareness - when to be direct and ruthless, when to minimise turnover.

Our Principles

To be respectful to fellow team mates, punctual, wearing the correct kit and positive in everything you do.

To be competitive and driven to succeed, ensuring the highest league standards.

To ensure the longevity of the club, giving juniors the opportunity to succeed at the right level of ability, allowing this progression to naturally occur.

To be able to offer these juniors an elite opportunity where they can see a pathway and not move away from the club to fulfil this.

To give back to the club giving your time umpiring, coaching and volunteering.

The Future

To source a new set of playing and training kit with a brand new direction.

To be competitive at a regional level from Division 1-3 in the next 5 years.

To annually integrate 3 U18 players into 1st XI training and match days when appropriate.

To create an over supply of players ready for 1st XI through structure of coaching and information sharing across teams.

To continue a formal link with Leicester Grammar School & Leicester University, integrating talented students to training and opportunities to play Saturdays at the club.
